

KINGS LYNN PHOTOGRAPHY GROUP

Tuesday 4th February 2014

Finding the Right Subject to Photograph while Holdings Interest (photography session)

Firstly I would like to say Thank you to everyone who attended the group this evening - it was a fun night.

It was great seeing members working well together to create unusual, fun and great images throughout the evening.

Sometimes we can lose inspiration within our photography or we lack the creativity to set up an object to take photographs of or to make them look more interesting - so this session was good to look at other ways to approach "Table-Top" photography – which I feel members achieved whilst having fun at the same time.

Tuesday 25th February we will be looking at members images taken at the "Mart" on Tuesday 18th February 7pm-9pm – We will be meeting first at the Custom House (if members would like to attend the evening session)

We will also be looking at members images taken from this Tuesday's session just gone at the next meeting on the 25th February (so please could all members send me an image if you don't mind for the PowerPoint Presentation).

At the next session we will also be looking at how to arrange the tables at the group so this will give members ample room for movement and equipment and also make the room more accessible to move around with ease.

Photographs kindly supplied by Jo Tidman, Martin Etheridge and Joel Inman

The next session is on Tuesday 25th February 2014 - 7pm-9pm (please also bring along your cameras and one subject just in-case we get the time to also take some photographs)

(Mart Photography Tuesday 18th 7pm - 9pm meeting at the Custom House first)

I look forward to seeing you all again on Tuesday 25th February 7pm-9pm

HAPPY SNAPPING!!! – Founder - Tracey Robinson
