

Creative Water Photography Workshop

Sunday 24th May - 10am - 2pm

Gaywood Church Rooms, Gayton Road, Gaywood, Kings Lynn, Norfolk PE30 4DZ

£40.00 per person (maximum of 15 people) – Booking & Payment in Advance

What will I learn at this Workshop?

You will learn how to use your settings on your camera correctly to create great effects and images using simple techniques to more advance techniques to create stunning water photography images.

What equipment will I need to bring on the day?

You will need a tripod, different lenses (close up lens if possible) backdrops , torch (Tracey will provide materials, backdrops, filters and subjects to photograph and much more (please feel free to bring your own items or backdrops if you wish) Please bring your laptop if you wish to edit one of your images with Photoscape or a similar editing package installed on your laptop (don't worry if you haven't got a laptop Tracey will allow people to use her laptop (Please bring a memory stick if using Tracey's laptop).

Do I need any knowledge in this type of photography?

The workshop is for all levels within photography as we will all be working in groups with Tracey giving tuition, guidance and demonstrations throughout the workshop.

What sort of subjects will I be photographing?

Tracey will be showing you how to achieve photographs using fizzy drinks, music cds, glass with food colouring and bubbles, oil with water, basic droplet photography, and a small demonstration at the end of the workshop on how to take photographs using the SplashArt Kit.

A little more about the Workshop

The workshops a full **4 hour** session taking photographs constantly, learning new tips and techniques to gain great images – You will also be looking at and using different set ups, backdrops and much more to create this type of photography. It will be a fun session with lots of images to be gained.

Tracey will provide a **“Workshop Pack”** to help you throughout the workshop including tips and advice on how to edit your images to add a little **“punch”** or to **“clean up areas of your images”** using Photoscape” or similar editing programmes – Please bring your laptop with Photoscape or similar editing package installed.

Examples of images which could be gained on the day can be seen here
